Thank you to everyone who completed the **survey** last year. Your feedback has helped identify the key issues that really matter to residents.

Since then, we have:

- Reviewed the survey results
- Carried out a village character assessment
- Started preparing a design code
- Begun drafting policies for the Neighbourhood Plan
- Identified possible green spaces to protect from development

The Neighbourhood Plan **policies** will help guide future development while protecting the village's **rural character, listed buildings and unique heritage assets.**

Before these neighbourhood plan policies are finalised, we want to **hear your feedback** so come and see our progress and share your views.
